Education	Stanford University Ph.D., Economics (<i>expected June 2024</i>) M.A., Economics, 2022	
	<u>Dissertation Committee</u>	
	Prof. Nicholas Bloom Economics Department, Stanford University (650) 725-7836 nbloom@stanford.edu	Prof. Caroline Hoxby Economics Department, Stanford University (650) 723-9678 choxby@stanford.edu
	Prof. Ran Abramitzky Economics Department, Stanford University (650) 723-9276 ranabr@stanford.edu	
	<u>Fields</u> Primary Field: Labor Economics Secondary Fields: Development Economics, Public Economics	
	Instituto Tecnológico Autónomo de México (ITAM)	
	M.A., Economics (with Honors)	2018
	B.A., Economics (with Highest Honors)	2017
Professional Experience	Inter-American Development Bank Summer Intern – Consultant, Gender and Diversity Division	2022
	Banco de México Economist, Real Sector Research Division	2015 – 2018
Awards and Fellowships	Shaw-Haley Fellow Stanford Institute for Economic Policy Research	2023
	Knight-Hennessy Scholar Stanford University	2018 – 2021
	Premio Citibanamex de Economía - <i>Best undergraduate thesis in Economics</i> Citibanamex	2018
	Premio ExITAM - <i>Best undergraduate thesis in Economics</i> ITAM Alumni Association	2018
	Beca Baillères - <i>Full tuition awarded for the best admission exam</i> Instituto Tecnológico Autónomo de México	2011 – 2015

Teaching Experience	Stanford University	
	The Modern Firm in Theory and Practice (ECON 149)	2024
	Teaching Assistant for Prof. Nicholas Bloom	
	Economics of Health Improvement in Developing Countries (ECON 127)	2023
	Teaching Assistant for Prof. Grant Miller	
	Public Service and Social Impact (PUBLPOL 75B)	2022
	Teaching Assistant for Prof. Juliet Brodie and part of the seminar teaching team	
	Introduction to Financial Decision Making (ECON 43)	2022
	Teaching Assistant for Profs. Michael Boskin and John Shoven	
	Economic Policy Analysis (ECON 101)	2022
	Teaching Assistant for Advanced Lecturer Christopher Makler	
	Economic Policy Analysis (ECON 101)	2021
	Teaching Assistant for Lecturer Cristian Santesteban	
Instituto Tecnológico Autónomo de México		
Applied Research Seminar, Master in Applied Economics program	2022	
Lecturer		
Applied Macroeconometrics	2014 – 2015	
Teaching Assistant for Prof. Ignacio Lobato		
Research Assistance	Research Assistant for Prof. Ran Abramitzky	2019
	Research Assistant for Prof. Isaac Sorkin	2019
Service and Leadership	Stanford University	
	Wellness Representative (WINGer), School of Humanities and Sciences	2019 – 2023
	President, Mexican Association of Graduate Students	2019 – 2022
	Graduate Student Council, Department of Economics	2020 – 2021
	Finance Committee, Knight-Hennessy Scholars	2020
	Mentor, Stanford/MIT COVID-19 Policy Hackathon	2020
	Cofounder, <i>Aplicar desde México</i> - Resources for prospective Mexican PhD students	2020
	Instituto Tecnológico Autónomo de México	
	President, Student Council	2015
Director, Public Policy Contest	2015	
Languages and Skills	Spanish (native), English (advanced), French (intermediate)	
	Stata, R, Python, MATLAB, EViews	
Research in Progress	School-Linked Social Insurance and Labor Market Effects: Evidence from Mexico (Job Market Paper)	
	In 2016 the Mexican government affiliated more than 6 million high school students to the national social insurance institution and began providing basic medical benefits attached to their school enrollment. This paper combines differences across cohorts induced by the exposure to the policy with differences across states in initial informality rates to study the impact on labor market outcomes. Relative to less informal states, exposed cohorts in highly informal areas show higher participation and formality rates. There is no significant impact on school enrollment or monthly income. The formalization effect is sizable, with an additional percentage point in the initial state informality rate being associated with an increase of between 0.8 and 1.3 percentage points in the formality rate among exposed cohorts.	

Domestic Workers and Social Insurance

Domestic workers provide essential services for the functioning of private households and their members. Yet, domestic workers rarely have access to rights and protection, presenting a very high rate of informality. In Mexico, there are around 2 million domestic workers, with significant occupational segregation by gender, as more than 90% are women. I study a change in the Mexican federal labor law in 2019, expanding the access to social insurance benefits for domestic workers. The new legislation was accompanied by a pilot program of voluntary enrollment, with the objective of transitioning towards a mandatory regime. I analyze the impact of these recent developments on the observed labor outcomes of domestic workers in the quarterly labor force survey.

NAFTA to USMCA: The Impact on the Labor Market in Mexico

The United States-Mexico-Canada Agreement (USMCA) substituted the North America Free Trade Agreement (NAFTA) in 2020, updating trade rules for one of the world's largest free trade zones. Some key changes include stricter rules of origin and higher wage requirements in the automotive industry, as well as a requirement for broader worker representation in collective bargaining in Mexico. This project studies what is the impact of the new provisions on employment and wages in Mexico, using administrative employer-employee matched data.
